

## Water & Oil Cooled Cold plates 6

Thyristor. Thyristor / Diode. Diode / Diode. Mosfet & IGBT Isolated Modules.

Thyristor. GTO. Diode. Mosfet & IGBT Capsule Devices.

**GD Rectifier Ltd** offer a range of custom built Cold plates for cooling both Isolated Modules and Capsule devices.

By working closely with our customers, we are able to produce Highly efficient coolers in the most compact areas of operation.

With our innovative machining techniques, we are able to produce the most cost effective cooling solutions for both Oil and Water.

Please contact our sales office for technical details and discussions.
