

## Gunn Diodes

### Features:

- Targeted at CW and pulsed K-band (18-26.5 GHz) frequency source applications.
- Applications: Motion Detection and Surveillance, Microwave Transmitter and Receiver
- Applications: Military Radar, Gunn Diode Oscillators and Radar Detectors

Part Number	FreqRange(GHz)	P1dB(dBm)	Package Style	Status
<u>MwT-GK</u>	18-26.5	13.0	Chip or Packaged	Active/New Product
